- High-Fidelity UI Mockups
- Micro-Interactions & Animation
- Storyboarding & Narrative Design
- AR/VR Interaction

User-Centered Design:

- User Interviews & Surveys
- User Research & Testing
- User Personas & Journey Mapping
- Information Architecture
- Usability Testing & Heuristic Evaluation

Design Thinking:

- Design Trends Research
- Interaction & Visual Design
- Cross-Functional Collaboration

Technical Skills

- Figma, Sketch, Adobe Creative Cloud (Photoshop, Illustrator, Premiere Pro), Blender, CorelDraw, Unity, Miro
- AutoCAD, SketchUp, Revit, Rhino, Lumion, V-Ray

As a passionate and innovative UX designer with a background in architecture, I love finding the perfect balance between creativity and practicality. Currently pursuing my Master's in User Experience Design, I specialize in translating user needs into intuitive digital experiences that align with business objectives. My expertise spans user research, design thinking, and rapid prototyping, enabling me to create engaging user interfaces and seamless interactions.

EXPERIENCE

2025

Pune, India

User Experience Design Intern

Peepaldesign

- Motorcycle TFT Cluster: Collaborated on end-to-end UI design for a leading brand, defined ride mode logic, contextual UI priorities, and visual clarity. Built wireframes, prototyped flows
- Enterprise Software: Simplified complex workflows using journey mapping and heuristic evaluations; aligned design with business logic and user expectations.
- Medical Device UI: Designed clear, high-stakes UI for a Laser Stone Removal Machine; prioritized alerts and safe touch zones via iterative prototyping.
- UX Convention Website: Designed responsive, accessible UI with strong visual hierarchy. Aligned with branding and insights.
- UX Documentation support in technical writing

2022-23

Pune, India

User Experience Designer, UI Designer

KLINQ - Freelancer

- Conducted user research and translated insights into user-centric UI designs.
- Designed wireframes, prototypes, and high-fidelity UI mockups to enhance usability.
- Collaborated with cross-functional teams to align design solutions with business goals.
- Incorporated micro-interactions to improve user engagement.

2021

Bengaluru, India

Architectural Intern

Studio Parametric

- Assisted in the development of architectural designs, utilizing tools such as AutoCAD, SketchUp, and Revit.
- Produced detailed design drawings, 3D models, and construction documentation.
- Collaborated with senior architects and clients to develop functional solutions.
